DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35

U.S.C. 121:

- I. Claims 1-5, drawn to an electron beam apparatus having a two-stage deflector for aligning the beam, classified in class 250, subclass 311.
- II. Claims 6-9 and 24, drawn to an electron beam apparatus having an irradiation controller for not irradiating weak regions, classified in class 250, subclass 492.3.
- III. Claims 10-13, drawn to an electron beam apparatus having a two-stage deflector set at a pivot point of deflection for scanning a target, classified in class 250, subclass 396ML.
- IV. Claims 14-17 and 25-26, drawn to an electron beam apparatus having objective lens designed to satisfy a special relationship, classified in class 250, subclass 398.

- V. Claims 18-23, drawn to an electron beam apparatus having means to determining a value for a heating electric power of the thermionic emission cathode by evaluating a signal/noise ratio, classified in class 250, subclass 505.1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III, IV and V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are discloses severally and separately. Each has different functions. (Refer to pgs. 10-16 of specifications).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
